

# New Patient Checklist

- Be on time!
- Please allow 5-10 minutes to check in ahead of your appointment
- Please bring your new patient paperwork. (If you do not have your paperwork filled out ahead of your visit, please plan an additional 25-30 minutes ahead of your first visit to complete your paperwork.)
- Please bring any pertinent labs you would like in your chart.
- Request lab results be faxed to us ahead of your appointment. If you have had labs done since your last visit somewhere other than Schneck, please tell the lab to fax them to us at (812) 523-8569. Even though this is on the order it does not always get done and we want to maximize your visit.
- Create a list of goals for your visit. We will cover these at the beginning of your appointment.
