

Do you or someone you care about smoke cigarettes?

WellLife
SCHNECK

Ready to Quit or Cut Back?

The team at WellLife by Schneck offers two free programs to help members of our community quit smoking. There is a intensive program or a more individualized program for patients to progress at their own pace.

Did You Know...

- Smoking is responsible for about 8 million premature deaths each year
- Smoking leads to disease and disability and harms nearly every organ of the body
- More than 16 million Americans are living with a disease caused by smoking
- According to the American Lung Association, tobacco is the leading cause of preventable death and disease in the US, claiming close to half a million people each year

Per the Centers for Medicare & Medicaid Services regulations, individuals with Medicare, Medicaid, or similar replacement plans are not eligible for the gift card incentive in this program. Fees for the cessation products and the provider services will be billed to the participant's Medicare, Medicaid, or similar replacement plan.
